

UI Tiles – AV Solutions – Multi Shades Tile - Cloud version 3.0001.0023

Driver

This release note is for the AV Solutions Multi Shades Tile Extension.

Notes and Recommendations

Drivers->UI Tiles->AV Solutions-> Multi Shades Tile

System Requirements and Dependencies

- Crestron Home v4.007.0243
- An offline license is required for the driver to operate beyond its 2-hour trial

Introduction

This UI extension driver provides the integrator with the ability to add up to 30 shade controls within a single tile. The tile can be typically used to simplify the users experience by assigning shade commands.

Key Features

- Flexible Viewing Options: Can be viewed at the room level, on the home page, or both, for intuitive access tailored to user preferences.
- Customization: Supports up to 30 shade controls under a single tile with custom labels.

Installation/Upgrade Instructions

Installation Settings

ⓘ License Key

Obtain a license key from <https://mylicensingwebsite.com>. The driver operates in trial mode for 2 hours without a key

Enter License Key Here
